### [1] Setting and Infrastructure (SI)

#### [1.3] Number of Campus Sites

#### **Description:**

Gebze Technical University (GTU) was established with the decree of the Grand National Assembly of Turkey on November 4, 2014, based on the foundations and experience of Gebze Institute of Technology (GYTE), which was founded in 1992, inheriting and embracing GYTE's 22-year heritage. Gebze Technical University is one of the the youngest universities in Turkey, yet it has the experience to become the most important hub for science in the country, thanks to its infrastructure, facilities and academic staff.

Gebze Technical University has always continued its efforts to offer education and teaching and conduct research in ever-increasing quality, and gained a new status being designated as one of the 10 research universities of Turkey, with the announcement made by Dear Mr. President at the opening ceremony for 2017-2018 Academic Year.

Pioneering technological developments and having close relations with many institutions such as TÜBİTAK-MAM (Scientific and Technological Research Council of Türkiye -Marmara Research Center) and TSE (Turkish Standards Institute), which are located in the same region as itself, Gebze Technical University has developed its R&D infrastructure with the protocols it has signed up to now, and increased the opportunities it can offer. By this means, thanks to the support it receives from institutions such as the Ministry of Development and TÜBİTAK, the university continues research conducting projects in vital subjects such as nanotechnology, defense technologies, unmanned aerial vehicles, electric cars, biotechnology, biological clock, and cancer that reflect the needs of our age.

There are a total of 22 departments under the umbrella of 5 faculties and 9 institute buildings located on the campus of Gebze Technical University.

You can see the list of faculties and institutes below.

<b>Gebze Technical University Faculties &amp; Departments</b>
<b>Faculty of Engineering</b>
Computer Engineering
Bioengineering
Environmental Engineering
Industrial Engineering
Civil Engineering
Geomatics Engineering
Chemical Engineering
Mechanical Engineering
Materials Science and Engineering
Electronics Engineering
<b>Aerospace Faculty</b>
Aeronautical Engineering Department
<b>Faculty of Science</b>
Physics
Chemistry
Mathematics
Molecular Biology and Genetics
<b>Faculty of Business Administration</b>
Economics
Management
Science of Strategy
Management Information Systems
<b>Faculty of Architecture</b>
Architecture
City and Regional Planning
Industrial Product Design
<b>Institutes</b>
Natural and Applied Sciences

Social Sciences
Nanotechnology
Information Technologies
Energy Technologies
Biotechnology
Earth and Marine Sciences
Transportation Technologies
Defense Technologies
