[5.16] Pedestrian Path Policy on Campus

Pedestrian Path

2

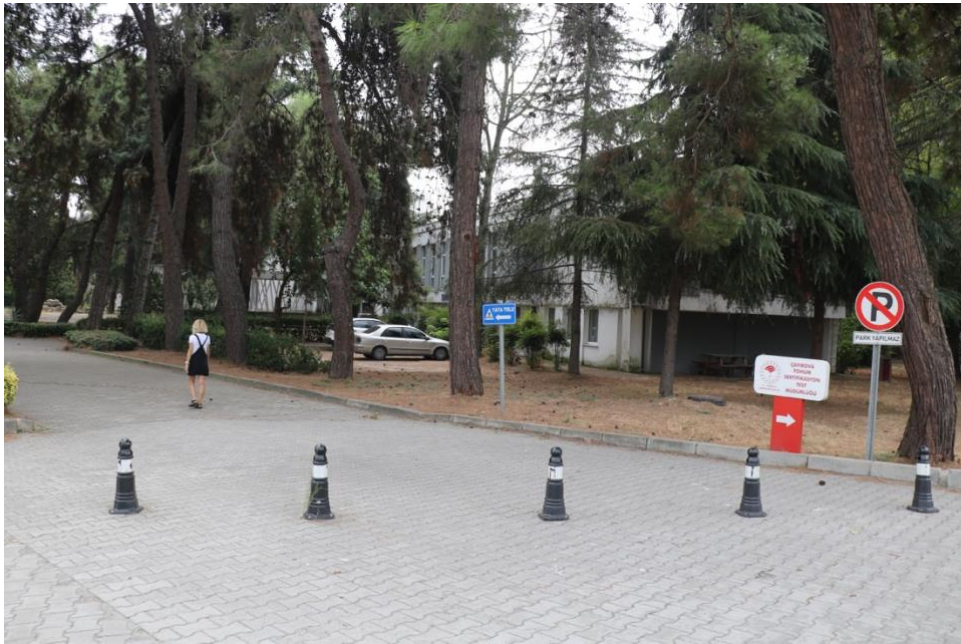

Street lamp for pedestrian in night (Gebze Technical University, Turkey)

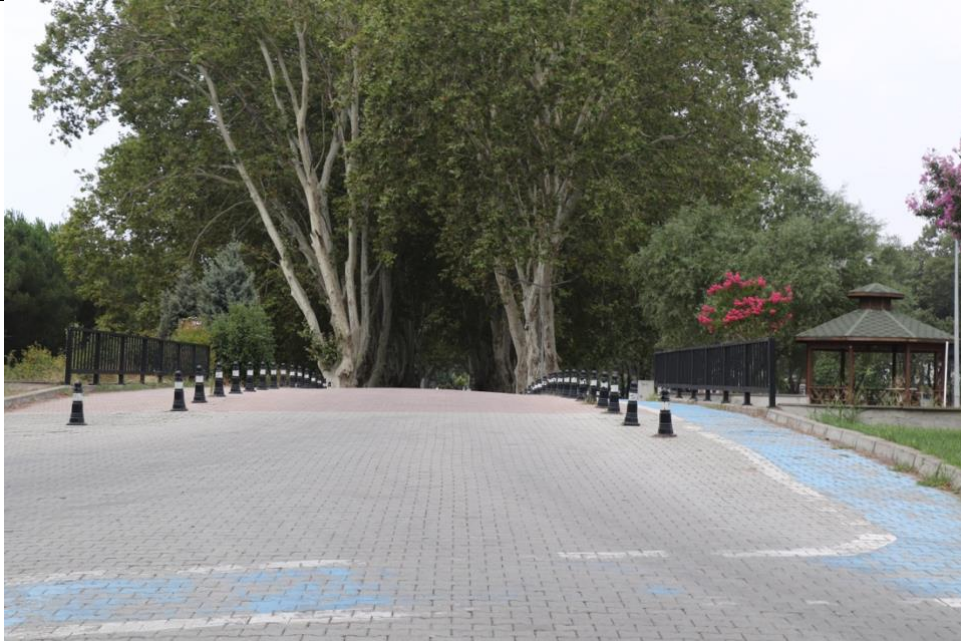

Speed limit (warning signs) for pedestrian security

Pedestrian Path

Only Pedestrian Path (close area to traffic)

Separate road for bikes and pedestrian path

disabled ramp for disabled pedestrians

Disabled entrance for disabled pedestrians

Pedestrian path for disabled pedestrian (faculty buildings entrance)

Pedestrian path (close area to traffic)

Description:

Separator between road for vehicle and pedestrian path. Street lamp for pedestrian in night. Gebze Technical University has 800 led street lamps, which control the street lights automatically through the astronomical timer. Within the campus, there are speed limit regulations for vehicles with a focus on pedestrian safety. There are numerous pedestrian-only pathways throughout the campus. Shared paths for bicycles and pedestrians have been arranged with both signage and bollards preventing vehicle entry. Similarly, areas suitable for disabled pedestrians' use of sidewalks have been designated. An accessible ramp facilitating stair descent and ascent for individuals with disabilities is also available. There are disabled pedestrian entrances and pathways to faculties to facilitate access for pedestrians with disabilities.
