### [3] Waste (WS)

#### [3.3] Organic Waste Treatment

Compost machine in GTU Campus for composting waste from cafeteria and biomass (tree leaves, dried tree branches, dried weeds)

**Example of Organic Waste Treatment in Gebze Technical University**

**Description:**

In GTU, canteens and cafés produce organic waste. A new compost machine was bought for the Campus waste composting. Organic waste from the cafeteria is collected first and composted waste will be available to be used as soil enriching agents for the plant vegetation. Another aim of using this composting machine is that cafeteria waste can be used as animal food after composting.
