[1] Setting and Infrastructure (SI)

[1.3] Number of Campus Sites

Description:

Gebze Technical University (GTU) was established by a decree of the Grand National Assembly of Turkey on November 4, 2014, based on the foundations and experience of Gebze Institute of Technology (GYTE), which was founded in 1992, inheriting and incorporating GYTE's 22-year legacy. Gebze Technical University is one of the youngest universities in Turkey, but with its infrastructure, facilities, and academic staff, it has the experience to become the most important center of science in the country.

Gebze Technical University has always continued its efforts to provide education and teaching and conduct research with ever-increasing quality and has achieved a new status by being designated as one of the 10

research universities in Turkey with the announcement made by Dear Mr. President Recep Tayyip Erdoğan at the opening ceremony of the 2017-2018 academic year.

Being a pioneer in technological developments and having close relations with many institutions such as TÜBİTAK-MAM (Scientific and Technological Research Council of Turkey-Marmara Research Centre) and TSE (Turkish Standards Institute), which are in the same region as itself, Gebze Technical University has developed its R&D infrastructure with the protocols it has signed so far and increased the opportunities it can offer. In this way, with the support of institutions such as the Ministry of Development and TÜBİTAK, the university continues to research and implement projects in important areas such as nanotechnology, defense technologies, unmanned aerial vehicles, electric cars, biotechnology, biological clocks, and cancer, which reflect the needs of our times.

Gebze Technical University has 1 vocational school, 5 faculties, and 8 institutes in a total of 23 departments.

You can also access the video that introduces GTU here: <https://www.youtube.com/watch?v=D4NeF31fLOQ>

You can see the list of faculties and institutes below.

Gebze Technical University Faculties and Departments
Vocational School
Cyber Security Analyst and Operator
Aerospace Faculty
Aeronautical Engineering Department
Faculty of Architecture
Architecture
City and Regional Planning
Industrial Product Design
Faculty of Business Administration
Economics
Management
Science of Strategy
Management Information Systems
Faculty of Engineering
Computer Engineering
Bioengineering
Environmental Engineering
Industrial Engineering
Civil Engineering
Geomatics Engineering
Chemical Engineering
Mechanical Engineering
Materials Science and Engineering
Electronics Engineering
Faculty of Science
Physics
Chemistry
Mathematics

Molecular Biology and Genetics
Institutes
Defense Technologies
Biotechnology
Earth and Marine Sciences
Energy Technologies
Graduate School
Information Technologies
Nanotechnology
Transportation Technologies
