### [5] Transportation (TR)

[5.4] The total number of vehicles (cars and motorcycles) divided by total campus' population

| No. | Vehicle                             | Total Number |
|-----|-------------------------------------|--------------|
| 1   | Car managed by the university       | 15           |
| 2   | Cars entering the university        | 489          |
| 3   | Motorcycles entering the university | 10           |
|     | Total                               | 514          |

$$514 / 11532 = 0,044$$

### Description:

9 cars owned by university and 4 cars are hired for the university and 2 tractor. This is only one electric car. In the current year, the total number of vehicles entering the campus was 130,142. This figure includes guests, staff, and service vehicles. Given that the campus operates for 261 business days per year, this equates to an average of approximately 499 vehicles entering the campus per day. The campus has a total population of 11,532, comprising students and academic and administrative staff. A comparison of this figure with the daily number of vehicles entering the campus shows that the ratio is approximately 0.044.
