Inorganic Waste Treatment at GTU (Gebze Technical University, Türkiye)

Description:

There is a group created for Inorganic Waste treatment on the Gebze Technical University campus. In addition, there is a person responsible for Inorganic Waste treatment in each department. GTU generates a total of 6.69 tons of inorganic waste. Of this, approximately 4.49 tons are treated, representing approximately 67.11% of the total.

- 1) Battery containers are placed in every building.
- 2) Inorganic Waste treatment in GTU is in collaboration with TAP. Inorganic waste collected through this company's cooperation and Kocaeli Municipality is treated
- 3) The University also has a waste storage field away from the campus center and the department's buildings.
